Our Social Impact

Not all people have the same opportunities to access, and be included in, the life of their communities. Through our Mentoring and Training services, Interactionz facilitates opportunities that both help people to explore and experience what they want from their lives, and contribute to building communities where all can thrive. Our Visualisation services financially supports these services.

Surplus from our commercial activities are channelled directly into providing community services, so when you support us your impact is felt on a much wider scale.

Testimonial

We were so delighted to have Interactionz as part of our Sales & Marketing Kick Off. It's only after we reflected on your beautiful illustrations that we realized how much we had to talk about! It was a jam packed couple of days with a lot of key messages that we needed the team to reflect on.

They are also fabulous ways in which we can reinforce our key messages in a visually appealing way.

Personally I enjoyed working with you and the ability to contribute to your social enterprise in a meaningful way is fabulous.
